Re: SWC 05-008, 292 Morse Road, Manchester, NH 03104

Dear Mr. Fosher:

On April 6, 2005, the Department of Environmental Services, Waste Management Division ("DES") conducted an inspection of your property located at 292 Morse Road, Manchester, NH ("Site"). The purpose of the inspection was to determine your compliance status with RSA 149-M and rules adopted pursuant thereto relative to the proper management of solid waste.

During the April 6, 2005 inspection, DES personnel observed or learned the following:

1. Construction and demolition debris consisting of, but not limited to, metal, shingles, insulation, and wiring, has been used as fill in the area adjacent to the residence at 292 Morse Road.

This letter serves to inform you that the above referenced Site conditions constitute violations of RSA 149-M, specifically:

RSA 149-M:9, I Operating an unpermitted solid waste facility.

DES believes that the cited deficiency can be corrected by completing the following requested remedial actions within the time indicated:

1. **Immediately** cease operating an unpermitted solid waste facility.
2. Remove all solid waste at the Site, specifically construction and demolition debris, by **July 29, 2005** to a solid waste facility permitted to handle such wastes. Burning of this material is not allowed.
3. **By August 5, 2005**, submit to DES written confirmation that these steps have been completed, including **copies of all disposal receipts** for the solid waste, at the address below.
